BLACKBURN

OEM Wheel Solutions

About Blackburn OEM Wheel Solutions:

Blackburn OEM Wheel Solutions are the largest privately held distributor of Original Equipment Manufacturer OEM wheels in the U.S. They provide OEM wheels (steel & alloy); OEM hubcaps and OEM center caps in brand new, refinished and used condition. Blackburn houses the largest breadth of inventory under one roof, whether it was made in Germany, Japan or the US.....black steel, mirror-like chrome or silver painted alloy, our dealers have a 95% chance that Blackburn's will have exactly what they're looking for in stock and ready to ship out.

Much like K&M Tire, Blackburn's is an independently owned and operated family business. In 1978 Blackburn OEM Wheel Solutions began as Blackburn's Hubcap and Wheels as a part-time job for Jim Blackburn, Sr. This part-time business soon gained momentum and in 1984 Jim Sr. established Blackburn's Hubcap and Wheel, Inc. During this period he operated the company with the help of his two sons, Jimmy and Torrey. The boys worked after school and on weekends to help establish the foundation on which Blackburn OEM Wheel Solutions operates today. Jimmy and Torrey took to the business in the early years with a sincere passion that still exists today!

Services Include:

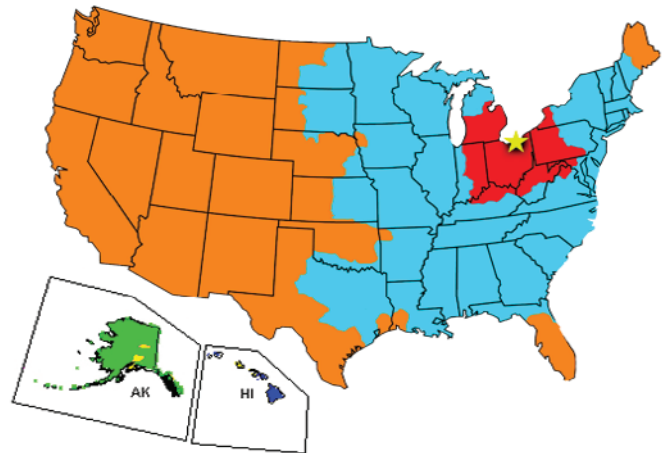

- **Branded Wheel Finder Website** - Use this selling tool (www.mywheelfinder.com/kmtire) to confidently sell OEM wheels .
- **OE Wheel Wholesale Program** - Blackburn's OE wheels wholesale availability, selection, and prices are unrivaled in the industry. Blackburn OEM Wheel Solutions offers the largest privately held inventory of OEM wheels, all of which are available at bulk and wholesale prices.
- **Blackburn's Buys** - Blackburn is one of the largest consumers of OEM wheels in the nation.

Products offered:

- OEM Alloy Wheels (New & used)
- OEM Steel Wheels (New & Used)
- OEM Hubcaps (New & Used)
- OEM Center Caps & Trim Rings (New & Used)
